Festival Fun Parks LLC  
850 NH RT 16  
Glen, NH 03838

Customer ID: **1858**  
Certificate: **12-C-0052**  
Site: 001  
FESTIVAL FUN PARKS LLC

Type: ROUTINE INSPECTION  
Date: 11-MAR-2024

---

### 2.126(a)(2)

#### Access and inspection of records and property; submission of itineraries.

The facility was unable to provide a written program of veterinary care at the time of inspection. The written program of veterinary care assures that staff understand emergency procedures and authorized veterinary care protocols to ensure animal welfare, and is examined at the time of inspection to ensure the authority of the attending veterinarian. The facility must ensure that the written program of veterinary care is available at the time of inspection.

Correct by March 19, 2024.

### 3.153(a)(1)(i)

#### Primary enclosures.

The bottom of the metal frame on the side of the main entrance door to the aviary was rusted (@3x6 inches), with sharp edges partially covered by duct tape that the birds had pulled off and damaged. Sharp rusted edges of metal may present an injury or ingestion hazard, and the duct tape may be harmful to welfare if ingested. The facility must ensure that housing facilities are kept in good repair and protect the animals from injury.

Correct by March 18, 2024.

### 3.158(b)(1)

#### Cleaning, sanitization, housekeeping, and pest control.

A black, sticky and wet substance was evident at the bottom junction of the walls and floor at almost the entire internal circumference of the aviary, and white staining on upper wire walls at the front of the aviary indicated excreta had not been removed. Improper sanitization of enclosures allows accumulation of dirt, debris, excreta and other disease hazards. The facility must ensure that sanitation occurs as often as necessary.

Correct by March 13, 2024.

This inspection and exit interview were conducted with the facility representatives.
