SEPARATION.

On May 16, 2016 an adult female ring-tailed coatimundi named Stella was able to gain access to an area where a juvenile Bennett s wallaby named Alfie was being housed. Once Stella gained access to the area she attacked Alfie causing injury. The licensee took Alfie to their attending veterinarian and Alfie ended up needing to have his middle digit amputated on his left front foot and approximately an inch amputated from his tail. Animals that are housed together that are not compatible can cause injury or discomfort. All animals that are housed together must be compatible.

Correct: From this day forward

Inspection and exit interview conducted with Licensee.
