RESCUE

Type: ROUTINE INSPECTION

Date: 16-NOV-2022

2.134

Contingency planning.

The licensee has components of a contingency plan, but it is incomplete. The licensee must develop, document and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing and care of their animals in the event of an emergency or disaster. The contingency plan must include all of the information and documentation as detailed in Section 2.134 (a-c) of the Animal Welfare Regulations and employees must be trained on the plan.

Correct by 25 January 2023

3.127(d)

Facilities, outdoor.

The squirrel and the foxes were moved outside and are currently housed in outdoor enclosures that are not enclosed by a 6 foot perimeter fence. The squirrel enclosure perimeter fence has a section that is only 5 feet tall, and the fox enclosure perimeter fence is only 4-5 feet tall. Perimeter fences must be constructed and maintained in such a way that they prevent animals and unauthorized persons from going through or under the fence, they can also act as a secondary containment for animals in the facility and they protect the health and well-being of the animals. Perimeter fences less than 6 feet high must be approved in writing by the Administrator (variance).
