Site: 002
PERFORMING ANIMAL
WELFARE SOCIETY

Type: RE-LICENSE INSPECTION
Date: 02-MAR-2023

3.127(d)

Facilities, outdoor.

In several areas of the perimeter fence, there is a tree directly adjacent and leaning into the perimeter fence that decreases the effective height of the perimeter fence. A transport cage was also stored directly adjacent to the perimeter fence that reduced the effective height. The perimeter fence must be constructed and maintained so that it restricts animals and unauthorized persons from going through it or under it and so that it can function as secondary containment for the animals in the facility.

Correct by your next scheduled relicense inspection.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 1 May 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
