2.75(b)(1)

Records: Dealers and exhibitors.

During the review of paperwork and records it was noted that the acquisition records were incomplete. The acquisition records for a newly acquired Blue & Gold Macaw were unavailable at the time of inspection.

Appropriate documentation of acquired regulated animals is essential for proper identification, tracing forward and trace back of the animals.

Each exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose information concerning each animal purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, euthanized, sold, or otherwise disposed of by that exhibitor. The licensee must have these forms available during inspection.

Environment enhancement to promote psychological well-being.

An environment enhancement plan (EEP) has not been established to promote the psychological well-being of the birds.

Failure to establish and maintain an EEP can result in birds not receiving adequate enrichment which can lead to behavior, social, health, and other psychological problems.

Dealers, exhibitors, and research facilities must develop, document, and follow a species appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The licensee must establish and maintain an EEP for the birds.
