

Inspection Report

Branson's Promised Land Zoo
2751 Shepherd of the Hills Expressway
Branson, MO 65616

Customer ID: **329566**
Certificate: **43-C-0352**

Site: 001
PROMISED LAND ZOO
BRANSON

Type: ROUTINE INSPECTION

Date: 12-JUL-2023

2.40(b)(2) Direct

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

An adult cavy on exhibit was observed to be less active than its pen mate and was holding its head in a lowered position with its right eye closed. A large amount of thick yellow discharge was present in front of the eye; part of this discharge appeared to have dried and become encrusted along the upper and lower eyelids. The fur around the eye appeared wet and a serous discharge extended from the eye to the jawline. The facility director stated that this eye problem started 5 days earlier and was being treated in-house; however, an examination and diagnostic workup had not been done by a veterinarian. Eye problems can be painful, can worsen quickly resulting in possible loss of vision, and can be contagious to other animals. Holding the eye closed is often an indication of pain. The licensee must remove this animal from public exhibit, must have the animal examined by a veterinarian, must follow the treatment protocol, and must provide written medical records for review by the inspector.

To be completed by July 14, 2023.

Note: The licensee pulled this animal from exhibit and made an appointment with a veterinarian following the inspection.

This inspection and exit interview were conducted with a facility representative. Exit interviews were conducted on July 12 and 14, 2023.

Additional Inspectors:

ALICIA GRAVES, ANIMAL CARE INSPECTOR
