2.1(a)(1)

Requirements and application.

This is a search inspection.

The applicant is selling fox kits without a valid USDA license via their online business site. The applicant was previously informed through two phone conversations on March 23, 2022 and December 8, 2022 that a license is required to sell or negotiate the sale of foxes for uses other than for food, fur, or fiber.

A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility needs to obtain a USDA license/registration or discontinue regulated activities.

No regulated activities may be conducted until a USDA license/registration is obtained.

This inspection and exit interview were conducted with the applicant.
