

Inspection Report

EDITH ALLEN WILDLIFE SANCTUARY INC
539 BUCKEYE COVE RD
CANTON, NC 28716

Customer ID: **328717**
Certificate: **55-C-0289**
Site: 001
GWEN LANDT

Type: ROUTINE INSPECTION
Date: 02-MAR-2022

3.84(a)

Cleaning, sanitization, housekeeping, and pest control.

***There is several days accumulation of food waste (banana peels), used food bowls and feces in the shavings on the ground in the large capuchin enclosure. Excreta and food waste must be removed daily from the enclosures to prevent accumulations, prevent the nonhuman primates from becoming soiled, and to reduce disease hazards.

3.84(b)(3)

Cleaning, sanitization, housekeeping, and pest control.

***The large water receptacle attached to the side of the capuchin enclosure has a build up of a dark grimy substance on the outside. When opened the inside of the container is discolored and the water darkened and slightly cloudy. Currently the waterer is washed monthly which is insufficient to keep it adequately cleaned. The waterer shall be cleaned and sanitized at least every two weeks to protect the water from contamination.

This inspection and exit interview were conducted with the Licensee.
