2.131(b)(1)

Handling of animals.

According to the licensee, on December 27, 2024, German Shepherds dogs, Roxy and Bella were let out by the licensee in the unenclosed front yard of the facility. The licensee stated that both Roxy and Bella ran away from the facility but were later found unharmed. An animal escape can cause severe distress, trauma, and/or physical harm to the animal. Handling of all animals must be done in a manner that cannot lead to an animal escape and prevent trauma, behavioral stress, physical harm or unnecessary discomfort. The facility must ensure animal escapes and resulting distress does not happen in the future.

Correct by: January 21, 2025, moving forward.

This inspection and exit interview were conducted with facility representative.
