

Inspection Report

Sustainable Safari, LLC
3001 White Bear Ave N
Maplewood, MN 55109

Customer ID: **507832**
Certificate: **41-C-0309**
Site: 001
Sustainable Safari, LLC

Type: ROUTINE INSPECTION
Date: 13-SEP-2023

3.152(b)

Facilities, outdoor

The shelter provided for 48 ducks and 2 emus in an outdoor primary enclosure at the farm is not large enough to provide shelter from inclement weather for all the birds at one time. Animals without adequate protection from inclement weather may suffer from stress, low body temperature, and decreased immune system function. Provide an adequate shelter to protect the birds from any adverse weather conditions that is large enough to comfortably contain all the birds at one time and prevent their discomfort from direct sunlight, precipitation, or wind. Correct by: 21 September 2023.

3.154

Environment enhancement to promote psychological well-being.

An environmental enhancement plan approved by the attending veterinarian that documents the appropriate provisions to provide enrichment and special considerations for birds has not been established by the facility. Failure to establish and maintain an environmental enhancement plan can result in birds not receiving adequate enrichment which can lead to behavioral, social, health, and other psychological problems. Establish, maintain and follow an environment enhancement plan approved by the attending veterinarian to promote the psychological well-being of the birds. Corrected at the time of inspection.

This inspection and exit interview were conducted with Facility Representatives.

End of report.
