PETERSON

Type: ROUTINE INSPECTION

Date: 25-MAY-2021

3.1(c)(3)

Housing facilities, general.

The fans, ceiling, and other surfaces of the sheltered building had an accumulation of dust and cobwebs. Surfaces not being kept clean and sanitized can lead to disease hazards and promote pest infestation.

The licensee needs to implement a cleaning and maintenance plan to prevent accumulation of dust and cobwebs.

Housing facility surfaces that are not in contact with animals need to be kept cleaned, and sanitized when necessary, to satisfy generally accepted husbandry standards and practices.

To be corrected by June 6th, 2021.

This inspection and exit interview were conducted with the owner.
