Site: 001

EAST COAST EXOTIC ANIMAL
RESCUE INC

Type: ROUTINE INSPECTION

Date: 30-MAR-2023

3.78(d)

Repeat

Outdoor housing facilities.

There is a large wooden post and a large tree limb that have fallen onto the perimeter fence, behind the grivet enclosure, which have caused the fencing to bow inward.

Areas of the perimeter fence which are in a state of disrepair impact the integrity of the fence and can potentially allow the entry of other animals.

Perimeter fences must be constructed so that they prevent entry of unauthorized persons or other unwanted species.

Correct by removing the post and tree limbs from the perimeter fence.

This inspection and exit interview were conducted with facility representatives.
