ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40(b)(2) Attending veterinarian and adequate veterinary care

--The facility is not maintaining appropriate hoof care so as to prevent injuries. A fallow deer has hooves that are too long and have lost the appropriate hoof angle. Flattened hoof angles, such as these, may lead to tendon injuries. The facility shall establish and maintain an adequate program of veterinary care that includes adequate hoof care and trimming when needed.

Correct by 4-15-14 by providing appropriate hoof trimming for any animals with hooves that are too long.

2.126(a)(2)

Sec. 2.126 (a)(2) Access and inspection of records and property;

--A facility representative was not available to allow access to the records during the inspection at approximately 16:30 on 2-15-14. The facility representative who accompanied the inspector during the inspection of the animals states that there would not be anyone available to allow access to the records for approximately one week.

Inspection of the covered animals and the exit interview were conducted with a facility representative on site.
