

Inspection Report

Anna Troyer
374 Audrain Rd 140
Clark, MO 65243

Customer ID: **325800**
Certificate: **43-A-5703**
Site: 001
Anna Troyer

Type: ROUTINE INSPECTION
Date: 01-DEC-2016

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

****A female Pekinese # 311 had a discolored spot on the left eye. The eye appeared to have an abnormal blue haze within and/or on the central portion of the globe. A slight amount of creamy yellowish discharge was noticed on the eye ball. The licensee was not aware of this, and mentioned the dog sometimes has a "cherry eye". Discoloration to the eye could be the result of injury, illness or other medical condition which may be uncomfortable or could lead to blindness. The licensee must have this animal examined by a licensed veterinarian in order to ensure that an accurate diagnosis is obtained and an appropriate treatment plan is developed and followed. The licensee must document this information and make it available to the inspector upon request. The licensee must ensure that all animals receive adequate veterinary care at all times.

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

****There was a female Bichon #347 that had the ID chain in its mouth and around the neck, pinching the lower jaw. The chain was preventing the mouth from closing and the dog was struggling to try and get the chain out of its mouth. The facility representative immediately removed the chain once pointed out. The skin was reddened under the lower jaw. The licensee must ensure all animals are observed daily to assess their health and well-being. To be corrected by: Dec 1, 2016.

2.75(a)(1)

RECORDS: DEALERS AND EXHIBITORS.

****The licensee had one 7006 record since the last inspection. The 7006 the licensee provided for inspection was incomplete and did not contain all the information as required on the APHIS form 7006 including the complete and accurate information on buyer/seller, date of sale, date of birth, and who transported the animals. Complete and accurate records must be kept in order to ensure that each animal's identity can be known with certainty and to facilitate tracking/tracing of animals. The licensee must use a USDA form 7006 (Disposition of dogs) and complete all the required information. To be corrected by: Dec 1, 2016.
