GRE-LYN INC  
478 Happy Hollow Ln  
Sevierville, TN 37876

Customer ID: **3050**  
Certificate: **63-C-0031**  
Site: 001  
GRE-LYN INC

Type: ROUTINE INSPECTION  
Date: 28-FEB-2023

---

### 2.131(d)(2)

#### Handling of animals.

\*\*\*While observing the fallow deer enclosure USDA observed two members of the public feeding and interacting with the deer while inside the deer enclosure. USDA remained at the enclosure to observe the interaction for a period greater than five minutes. During this time there were no employees present and none observed monitoring the interaction. In addition, it was noted that the staff in the park were not readily identifiable. During public exhibition animals must be handled so there is minimal risk of harm to the animal and to the public with sufficient barriers between the animals and public. If staff is to be the barrier provided then they shall be monitoring the periods of interaction at all times. Correct by March 3, 2023.

### 3.127(c)

#### Facilities, outdoor.

\*\*\*The drainage in the Watusi, Scottish Highlander, elk, and camel pens is insufficient to rapidly eliminate excess water. Large areas of mud with puddling of water were observed in areas that the animals would be required to walk through in order to access food, water or shelter. Excessive exposure to wet, muddy ground can lead to hoof problems, lameness and other illnesses. Adequate drainage or appropriate surfaces shall be provided to allow the animals to access food, water and shelter without requiring them to walk through excessive mud. Correct by March 22, 2023.
