

Inspection Report

Caldwell Zoo
PO Box 4785
Tyler, TX 75712

Customer ID: **5968**
Certificate: **74-C-0367**
Site: 001
Caldwell Zoo

Type: ROUTINE INSPECTION
Date: 17-JUL-2024

3.150(a) Critical

Facilities, general.

***On or about June 18, 2024, in the new construction area, a construction gate was left open by the construction crew which allowed several dogs entry into the Chilean Flamingo area. This resulted in the death of one of the Flamingos and injuring another, as surgery was required. Open gates increase the risk of escape or entry of unwanted predators that can harm the animals. The licensee must ensure that housing facilities for birds protect the birds from injury, and restrict other animals from entering that may negatively affect the welfare of the birds within, as required..
This was corrected, prior to the inspection, by having zoo staff check the construction area throughout the day and at close of business and must remain corrected from this day, July 17, 2024 forward.

3.127(d)

Facilities, outdoor.

***On or about June 18, 2024, several dogs entered the zoo by crawling under a perimeter gate and entered the construction area inside the zoo. High set gates increase the risk of escape or entry of unwanted predators that can harm the animals.
The licensee must ensure that perimeter fences and gates are constructed in a manner that protect the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility as required.
This was corrected with a new extension added to the bottom of the perimeter gates prior to the inspection and must remain corrected from this day, July 17, 2024 forward.

This inspection and exit interview were conducted with facility representative.
