2.126(b)

Access and inspection of records and property; submission of itineraries.

Inspector attempted to contact licensee by knocking on the door, yelling hello towards the kennel, and calling the phone number.

The licensee failed to have a responsible person available to conduct an animal welfare inspection. The facility was not able to be inspected for compliance with the Animal Welfare Act, regulations and standards to ensure the health and well-being of the animals.

Failure to provide access to the facility, animals, and records for inspection is a serious violation of the AWA and regulations. Failure to comply may result in enforcement action.
