

## Inspection Report

---

Wild Wilderness Drive-Through Safari  
20923 Safari Road  
Gentry, AR 72734

Customer ID: **31951**

Certificate: **71-C-0151**

Site: 001

WILD WILDERNESS INC.

Type: ROUTINE INSPECTION

Date: 17-AUG-2023

---

### 3.131(c)

#### Sanitation.

The premises are not being maintained. In the majority of outdoor enclosures, there was an overgrowth of weeds and tall grass. In some areas, the grass was approximately 3ft high and some weeds were 6ft high. Trees had overgrown into enclosure fences. Limbs had fallen in recent storms and were leaning near/against the enclosure fences. In the front kangaroo enclosure, an entire tree had fallen but was still wrapped in chainlink. The chainlink was bunched and presented an entanglement hazard. Overgrown weeds in enclosures can prevent adequate daily observation of animals and provide harborage for pests. Overgrown and fallen limbs and trees can present opportunity for animal escape or unwanted entrance of small mammal pests. Debris and trash on the ground can act as entanglement or ingestion hazards, causing injury to the animals. Premises must be kept in clean and good repair in order to protect the animals from injury and facilitate daily observation and husbandry practices. Correct by 9/17/23 by removing weeds, limbs, and debris from enclosures.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors:

DAVID SABALA, Supervisory Animal Care Specialist
