### 2.31(c)(3)

#### Institutional Animal Care and Use Committee (IACUC).

The facility is not preparing reports of its semi-annual evaluations and submitting the reports to the Institutional Official (IO). The facility held an IACUC meeting on 4 March 2025 during which they completed the required semi-annual review of the facility's program for humane care and use of animals and the animal facility inspection. A report of the IACUC's evaluations was not prepared, reviewed and signed by a majority of the IACUC, and submitted to the Institutional Official (IO). The purpose of such a report is to inform the IO of the facility's adherence to title 9, chapter I subchapter A- Animal Welfare including any departures identified by the IACUC; facility issues that the IO can help resolve; and if any significant/major problems are identified and not corrected in time, the IO will be required to report in writing to USDA the failure to adhere to the plan and schedule for correction of significant deficiencies.

The IACUC shall prepare reports of its semi-annual evaluations conducted (program of humane care and use review and facility inspection) and submit them to the IO. The report shall be reviewed and signed by a majority of the IACUC members, contain any minority views, contain a description of the nature and extent of the facility's adherence to and specifically identify any departures from the provisions of title 9, chapter I subchapter A Animal Welfare. For departures the report must identify the departure, state a reason for the departure, distinguish significant from minor deficiencies and contain a specific plan and schedule with dates for correcting each deficiency.

Correct by 25 June 2025.

This inspection and exit interview were conducted with the facility representative.
