Certificate:

Site: 001

CYNTHIA D DARLING

Type: RE-LICENSE INSPECTION

Date: 16-MAY-2023

2.40(b)(2) Direct

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A two-month-old Ibex was limping on its left front leg and not bearing weight on the leg when standing. According to employees, it had broken this leg below the knee about 4 weeks earlier. They applied a splint to the leg, which had been removed prior to the inspection. The Ibex was not examined by a veterinarian during this 4 week period. Inadequate veterinary care of injuries can result in ongoing pain, incomplete healing, and possible permanent damage or disfigurement. The licensee must have this animal examined by a veterinarian, must follow treatment recommendations, and must maintain medical records.

TO BE CORRECTED BY MAY 17, 2023.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by July 16, 2023, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
