Type: ROUTINE INSPECTION
Date: 16-NOV-2016

2.40(a)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Currently the licensee has two issues that have been identified and seen by the attending veterinarian who wrote down the desired treatment plan. However the treatments have not been completed by the licensee in the directed manner described by the veterinarian.

If the directions by the attending veterinarian are not followed through exactly as they are described by the veterinarian, in a timely manner, the medical condition can become worse, or cause a treatable condition to become chronic and increase the time of discomfort for the regulated animal.

The licensee must follow all directions exactly as given by the attending veterinarian as soon as possible and in a timely manner, to provide proper medical care to the regulated animals. If there are any health issues that are not resolving or improving the licensee must contact the attending veterinarian or another veterinarian that can provide treatment to treat the animal. All treatments should be documented, and any issue that is chronic or not treatable should be documented by the veterinarian and kept by the licensee for their records.

Inspection and exit interview conducted with licensee
