Site: 003  
PARTY ANIMALS INC

Type: ROUTINE INSPECTION  
Date: 27-MAR-2023

---

### 2.134(a) Repeat

#### Contingency planning.

The facility has not yet worked on developing a contingency plan since the last inspection. A contingency plan is required to provide for the humane handling, treatment, transportation, housing and care of the animals in the event of an emergency or disaster. The plan should identify the situations triggering the plan, outline the tasks to be carried out, identify a chain of command, and address how the response and recovery will be handled. The optional APHIS form left at the facility at the last inspection is empty and no other document has been started. The facility shall develop and document a detailed contingency plan.

### 3.53(c)(2)

#### Primary enclosures.

Ten small recently weaned rabbits are currently housed in an enclosure 20inx36in (providing 5 square feet). Once weaned, each rabbit weighing less than 4.4 lbs. needs to have 1.5 square feet of space. Thus if an enclosure houses all ten rabbits it should supply 15 square feet of floor space. Adequate floor space is necessary to allow the rabbits to make normal postural and social adjustments with adequate freedom of movement. Each rabbit weighing less than 4.4lbs shall be provided with 1.5 square feet of space. Correct by 3/29/23.

### 3.127(d) Repeat

#### Facilities, outdoor.

## Inspection Report

---

The current enclosure housing the two coatimundi is not enclosed by a perimeter fence at least six feet in height and three feet in distance from the primary enclosure fence. Since the last inspection, the facility has added a perimeter fence for the kangaroo and wallaby. A perimeter fence is necessary to keep out unauthorized animals and persons and to act as a secondary containment fence if the animals were to get out. The facility shall build a secondary or perimeter fence for the exotic species owned at least six feet in height and three feet in distance from the primary enclosure.

This inspection and exit interview were conducted with the licensee.
