Date: 08-JUL-2014

### 2.40(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Dog with microchip #0A02162273, white bichon female, was noticed shaking her head. Upon further examination, both ears have a heavy accumulation of dark brown matter. In addition, this dog has an open sore on her right ear.

Dog with microchip #0A02154170, white bichon female, was noticed shaking her head. Upon further examination, her right ear has a heavy accumulation of dark brown matter. In addition, this dog has open sore on both of her ears.

Having ear issues can be painful and irritating to the dog. This cause the dog to scratch, bite or rub the ears and may result in wounds/sores on the ears. Licensee must have methods to prevent, control, diagnose and treat all ear issues. These two dogs must be seen by a licensed veterinarian. Documentation of the examination, diagnoses and treatment must maintained by the licensee and made available for inspection by APHIS officials.

Correct by: 7/14/2014

### 2.40(b)(3)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Two dogs were noticed to have ear issues at today s inspection. In addition, several other dogs were noticed to be shaking their heads but had no obvious signs of ear issues. Licensee's wife stated that these issues had not been noticed prior to today's inspection. Issues that are left unnoticed and untreated can cause the animal's unnecessary pain and discomfort. Licensee must have a routine for daily observation and communicate all health issues to the attending veterinarian within a timely manor.

Correct By: 7/11/2014

Inspection and Exit conducted with Licensee's Wife.
