Type: ROUTINE INSPECTION
Date: 11-FEB-2016

3.127

FACILITIES, OUTDOOR.

At the time of this inspection there was no perimeter fence enclosing the outdoor facility housing the camels. The primary enclosure for the camels must be surrounded by a perimeter fence at least 6 feet high and at least 3 feet in distance from the enclosure.

A perimeter fence is required for the protection of the animals in the facility by restricting other animals and unauthorized persons from going through or under it and having contact with the animals in the enclosure. The fence can also function as a secondary containment system in cases of escape.

Correct by: August 11, 2016.

The inspection was conducted with the licensee's family member. The exit interview was conducted by phone with the licensee on February 12, 2016.
