Type: RE-LICENSE INSPECTION

Date: 09-MAY-2024

---

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

The facility purchased non-human primates of multiple species on 5/30/23 for resale purposes. Records reviewed for the disposition of these non-human primates were not complete. No sales records were available for the following animals: one ringtail lemur, 5 marmosets, 4 squirrel monkeys and one red handed tamarin. Complete disposition records are required to allow for legal and medical tracing of the animals. The facility shall make, keep and maintain records or forms which fully and correctly disclose all required disposition information for animals acquired including the name and address of the person to whom an animal was given or sold, the date of disposal/sale, the species of animal and the number of animals in the shipment.

### 3.75(a)

#### Housing facilities, general.

The indoor housing room for the one spider monkey housed indoors currently has two electrical outlets on the walls. The monkey may injure itself if playing with/coming in contact with the outlets. Housing facilities for nonhuman primates must be constructed so that they protect the animals from injury.

### 3.75(c)(2)

#### Housing facilities, general.

The window surrounds and a section of wood molding in the indoor monkey room are in need of maintenance. These wooden surfaces have lost their protective sealant surfaces and are no longer able to be readily cleaned and sanitized. All surfaces that cannot be readily cleaned and sanitized must be replaced or repaired to maintain the ability to be readily cleaned and sanitized.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) and by July 8, 2024 or the applicant will forfeit the license fee
