UZBEKISTAN AIRWAYS

400 KELBY STREET 16TH FLOOR
FORT LEE, NJ 07024

Customer ID: **26382**

Certificate:

Site: JFK

UZBEKISTAN AIRWAYS

Type: ROUTINE INSPECTION

Date: 26-OCT-2023

3.14(c)

Consignments to carriers and intermediate handlers.

On October 26, 2023, 76 cats were inspected that flew into John F. Kennedy International Airport (Queens, New York) from Islam Karimov Tashkent International Airport (Tashkent, Uzbekistan) on flight HY101 (AWB #s 25040629724, 25013689826, 25013689841, 25040629654, 25040629735, 25040629665, 25040629713).

The written food and water certifications were missing for 24 enclosures. Transporting animals without this information can compromise the carrier's ability to ensure adequate food and water is provided for the animals' health and well-being while transported. Cats in this shipment were in flight for 12+ hours and possible did not receive food or water, which is distressful and can have serious impacts on the health and well-being of the cats.

Carriers must not accept a dog for transport without the information required by this section, including the time and date the animals were last fed and watered and feeding and watering instructions for a 24-hour period.

3.15(e)(1)

Direct

Primary enclosures used to transport live dogs and cats.

On October 26, 2023, 76 cats were inspected that flew into John F. Kennedy International Airport (Queens, New York) from Islam Karimov Tashkent International Airport (Tashkent, Uzbekistan) on flight HY101 (AWB #s 25040629724, 25013689826, 25013689841, 25040629654, 25040629735, 25040629665, 25040629713).

A black and white, long-haired, large-breed, adult cat was unable to fully extend its neck while standing or sitting (primary enclosure #2794-7472). Inadequate space during transport can cause stress due to uncomfortable conditions and prevents normal postural adjustments. Primary enclosures used to transport live dogs must be large enough to ensure each animal has enough space to turn about normally while standing, to stand and sit erect and to lie in a natural position.

This inspection was conducted with a representative from the intermediate handler for this airline at JFK. The exit interview was conducted by phone with an airline representative.
