JOHN AND LYLE RENNER

Type: ROUTINE INSPECTION
Date: 13-NOV-2014

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A 7y old male beagle (chip #0A01575807) was observed to have a swollen red area of skin on his underside. The dog was observed to lick the area which could be a sign of discomfort. The owner had noticed this two days prior and has been monitoring it however the condition has not been communicated to the attending veterinarian. This dog's condition may be painful. This dog's condition must be evaluated and treated per the veterinarian's recommendations.

A female sheltie (chip #0A01575665) was observed to have a swollen reddened area between her toes on her right front paw. The facility has treatment directions for such condition per the attending veterinarian however this dog had not received any treatment. Such condition if not treated can be painful. This dog must be treated per the veterinarian's recommendations and her condition communicated to the attending veterinarian if it does not respond to the attending veterinarian's recommendations.

2.40(b)(3) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A female sheltie (chip #0A01575665) was observed to have a swollen reddened area between her toes on her right front paw. The facility did not identify the condition of this dog's foot prior to inspection. Untreated foot conditions may be painful and affect the comfort and health of the animal. Ensure that dogs are observed daily to identify medical issues that may lead to health problems.

Note: The adequate veterinary care issue cited under 2.40 on the previous inspection was corrected at the time of this inspection.

Inspection and exit briefing conducted with licensee.
