

Inspection Report

Illusioneering Inc.
4370 West Torino Avenue
Las Vegas, NV 89139

Customer ID: **8805**
Certificate: **88-C-0151**
Site: 002
ILLUSIONEERING, INC.

Type: ROUTINE INSPECTION
Date: 01-MAY-2017

3.131(a)

SANITATION.

Enclosure for Tiger, Miley: There was an approximately 1.5ft X 2ft section of chain link fencing within contact of the animal which had a thick-coated, yellowish-brown, buildup of animal urine waste, hair and organic debris.

Animal waste and organic debris must be removed as often as necessary to prevent potential contamination of the animals contained and to reduce disease hazards and reduce odors.

The cleaning schedule of the enclosures must be more effective to prevent the buildup of animal waste to ensure the health and well-being of the animals.

Correct by 06/01/2017.

3.131(d)

SANITATION.

Food preparation building: Inside a metal storage cabinet used to store steel food trays and knives, there was a heavy, accumulation of small, dark colored insect feces on the three shelves. Also, on the top surface of this cabinet was an accumulation of insect feces and yellowish-brown, dried areas of residue next to a rack of food containers. Currently, there is no pest control program in place for the kitchen area. Insects or other pests may contaminate food items or containers and become a health hazard to the animals.

A safe and effective program for the control of insects or other pests must be established and maintained for the health and well-being of the animals.

Correct by 06/01/2017.

This inspection and exit briefing were conducted with a facility representative.
