Contingency planning.

***The facility has not developed a written contingency plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession).

The contingency plan must identify situations the facility might experience that would trigger an emergency response such as electrical outages, faulty HVAC systems, fires, and animal escapes, as well as natural disasters the facility is most likely to experience.

The plan shall outline specific tasks required to be carried out in response to the emergencies or disasters such as detailed animal evacuation instructions or shelter-in-place instructions and provisions for providing backup sources of food and water as well as sanitation, ventilation, bedding, veterinary care, etc.

The plan shall identify a chain of command and who (by name or by position title) will be responsible for fulfilling these tasks, be reviewed and documented annually and provide training for personnel regarding their roles.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by December 26, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
