244 NASH ST EAST  
WILSON, NC 27896

Customer ID: **9272**

Certificate: **55-C-0263**

Site: 001

IMAGINATION STATION  
SCIENCE MUSEUM

Type: ROUTINE INSPECTION

Date: 06-JUL-2021

---

### 2.40(a)(1)

#### **Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

No written Program of Veterinary Care (PVC) was available at the beginning of this inspection. Upon phone contact by inspector to the Attending Veterinarian (AV), a copy of a 2018 PVC was provided to the facility. The 2018 PVC does not accurately reflect the species present during inspection. The PVC includes species no longer held by the exhibitor (sugar glider, possum) and does not document all current species (rabbits). Each exhibitor shall employ an AV under formal arrangements. In the case of a part-time AV, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the exhibitor. Correct by July 13, 2021.

### 2.75(b)(1)

#### **Records: Dealers and exhibitors.**

No records of acquisition, disposition, or animals on-hand were available for inspection. Disposition of a sugar glider was not recorded. Acquisition information for 2 rabbits, 1 hedgehog and 1 chinchilla was not available. No record of animals on hand was available. Per the regulations, every exhibitor shall make, keep, and maintain adequate records or forms which fully and correctly disclose the required, detailed information in this section concerning animals purchased or otherwise acquired, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized or otherwise disposed of by that dealer or exhibitor. Correct by July 13, 2021.

**Date:**  
06-JUL-2021

## Inspection Report

---

### 3.131(d)

#### Sanitation.

Excessive numbers of fruit flies were present in the animal display room, centered primarily around the hedgehog enclosure. High numbers of pests serve as an increased disease risk for the animals due to feces and disease transmission between the animals. A safe and effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained. Correct by July 13, 2021.

This inspection and exit interview were conducted with the facility representatives.
