Sacramento Zoologic Society
3930 West Land Park Drive
Sacramento, CA 95822

Customer ID: **3379**
Certificate: **93-C-0008**
Site: 001
CITY OF SACRAMENTO

Type: ROUTINE INSPECTION
Date: 02-JAN-2024

3.150(e)

Facilities, general.

In several kitchen areas that serve birds, including the main kitchen, cleaning supplies such as bleach that are harmful to the birds were on lower shelves. Substances such as cleaning supplies and disinfectants that are harmful to birds but that are required for normal husbandry practices must not be stored in food storage and preparation areas but may be stored in cabinets... in properly labeled containers that are adequately secured to prevent potential harm to the birds.

Correct by 14 January, 2024

3.153(a)(1)(i)

Primary enclosures.

In the thick billed parrot and hawk-headed (Red-Fan) parrot enclosures, there were exposed screws where it appeared the birds had chewed on areas of the nest boxes, and the screws were left exposed. Primary enclosures must be constructed and maintained so that there are no sharp points or edges that could injure the birds.

Corrected at the time of inspection.

3.154

Environment enhancement to promote psychological well-being.

Although the facility has individual species plans and provided appropriate enrichment within the avian enclosures, the facility did not have a documented environmental enhancement plan to promote psychological well-being of their avian species as required by the Animal Welfare Act. The facility must develop, document and follow an appropriate plan for environmental enhancement adequate to promote the psychological well-being of each group of birds with similar requirements. The plan must be approved by the attending veterinarian, and at a minimum must address social grouping, environmental enrichment, special considerations, restraint and exemptions to the plan, in accordance with currently accepted professional standards.

Correct by 16 January, 2024
