CONSERVATION
AMBASSADORS, INC.

Type: ROUTINE INSPECTION
Date: 08-NOV-2021

2.75(b)(1)

Records: Dealers and exhibitors.

The available inventory of animals on hand was not accurate at the time of inspection, including animals that are located at a separate site with no distinction between them. Disposition records for several animals were also not available or accurate at the time of inspection. Exhibitors shall maintain records that fully and correctly disclose the information required by the regulation.

Correct for all future inspections.

3.125(a)

Facilities, general.

In the mountain lion enclosure, the divider for the lockout had a panel of damaged fence that created sharp points, and the animal has access to both sides of the fence. Enclosures must be maintained in good repair to protect the animals from injury.

Corrected at the time of inspection by removing the damaged panel.

3.131(c)

Inspection Report

Sanitation.

The walk-in freezer where frozen prey diets are kept had an excessive accumulation of debris and dropped food items in the floor slats. The accumulation of debris and other food items in food storage areas can attract pests as well as pose a risk to the animals' health due to contamination of food. Premises shall be kept clean and in good repair in order to facilitate the prescribed husbandry practices.

Corrected at the time of inspection

This inspection and exit interview were conducted with the President.

Additional Inspectors:

Candace Krider, VETERINARY MEDICAL OFFICER
