Type: RE-LICENSE INSPECTION

Date: 26-JAN-2022

3.127(d)

Facilities, outdoor.

There were several areas along the western side of the perimeter fence which were maintained below the required height of 6 feet for the species housed at this facility. Some sections ranged from 5ft 3in to 5ft 6 in in height. Outdoor housing facilities must be enclosed by a perimeter fence that is of sufficient height to keep animals and unauthorized persons out. A perimeter fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility. The perimeter fence must be at least 6 feet in height.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 27 March 2022 or the Applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Relicense Inspection.

Regulated activity can continue under your existing USDA license until it expires.
