Mikayla Raines  
3955 Millersburg Blvd  
Faribault, MN 55021

Customer ID: **332037**  
Certificate: **41-B-0278**  
Site: 001  
MIKAYLA RAINES

Type: RE-LICENSE INSPECTION  
Date: 30-MAY-2025

---

### 3.127(d)

#### Facilities, outdoor.

Portions of the perimeter fence failed to meet the height requirement and the minimum distance from primary enclosures requirement, without written approval by the Administrator. Three of the perimeter fence gates measured approximately five feet high. Two of the gates are located on the southwest portion of the perimeter fencing and serve to contain two fox enclosures. One gate is located on the north side of the perimeter fence and serves to contain two fishers. Additionally, the perimeter fence is approximately 20 inches from the fisher enclosure, less than the required 36 inches (three feet).

An insufficient perimeter fence may not effectively act as secondary containment for the animals inside and may allow unwanted animals or people to enter the facility and potentially harm the animals within.

The perimeter fence must be of sufficient height (at least six feet high) and without gaps to keep regulated animals contained and unauthorized persons or animals out. It must be of sufficient distance (at least three feet) from the outside of the primary enclosure to prevent physical contact between animals inside the enclosure and animals or persons outside the perimeter fence, or written approval must be obtained from the Administrator.

This is a 1s Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by July 29, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
