Type: ATTEMPTED INSPECTION
Date: 14-JUN-2023

2.126(b)

Repeat

Access and inspection of records and property; submission of itineraries.

A responsible adult was not available to accompany APHIS Officials during the inspection process at 2:25 PM on 14JUN2023.

Inspector attempted to contact the licensee by cell phone. The licensee stated they were away for the day exhibiting animals.

The licensee failed to have a responsible person available to conduct an animal welfare inspection. It is a requirement of a USDA licensed facility to make the facilities, animals, and required records available for inspection. It is important for Animal Care to conduct unannounced inspections to ensure the health and well-being of the animals held at the licensed facility.

A responsible person must be available to accompany the inspector on an animal welfare inspection.
