City Of Clovis  
500 Sycamore Street  
Clovis, NM 88101

Customer ID: **3489**  
Certificate: **85-C-0006**  
Site: 001  
CITY OF CLOVIS

Type: ROUTINE INSPECTION  
Date: 02-MAR-2023

---

### 3.127(d)

### Repeat

#### Facilities, outdoor.

There is a section of perimeter fencing near Gate 2 that is in disrepair, with the top barbed wire strands broken. The broken strands reduce the total height of the fence to only 85 inches, which falls short of the required minimum of eight feet (96 inches) for the species inventoried at the time of inspection.

Perimeter fences that do not meet minimum requirements increase the likelihood that they will not be adequate to serve as a secondary containment system for the animals housed in the facility and to prevent other animals and unauthorized persons from entering. The licensee must assess all perimeter fences at the facility for adequate height and structural integrity and modify the existing fence(s) or install a different perimeter fence or fences of at least 8 feet in height. The perimeter fence(s) must be a minimum of three feet from the primary enclosures and constructed so that the fence(s) protect(s) the animals by restricting entry of outside animals and unauthorized persons from going through it, or under it, or having contact with the animals in the facility.

TO BE CORRECTED BY APRIL 2, 2023

This inspection and exit interview were conducted with the Zoo Director.
