COLORADO ACADEMY OF VETERINARY TECHNOLOGY

Type: ROUTINE INSPECTION
Date: 14-MAY-2015

2.33(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Numerous expired medications were found intermingled with current drugs in three different storage areas during this inspection: Proparacaine drops expired 3/15, FVRCP vaccines expired 4/14/15, Rabies vaccines expire 4/24/15; 3 vials of injectable Morphine expired 1 Mar 2015, 1 vial Euthanasia solution expired 3/15; 1 vial Naloxone expired 1 Oct 2014, 2 vials of Epinephrine expired 1 Mar 2015, 1 tube Sterile Lubricant expired 11/2014.

The use of expired medications is not considered to be safe or appropriate methods to prevent, control, diagnose, and treat diseases and injuries since the expected results cannot be guaranteed and the animals may experience pain and distress due to mistreatment, unrelieved symptoms, or due to unexpected side effects.

The program for providing adequate veterinary care shall include the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries.

Expired drugs were discarded or labeled and removed from active supplies during this inspection.

A system to identify and remove expired medical supplies shall be developed and implemented by 5/21/2015.

3.1(c)(1)

HOUSING FACILITIES, GENERAL.

The area where animals are housed is carpeted and cannot be readily cleaned and sanitized or easily removed or replaced when worn or soiled.

Carpet is absorbent and cannot be readily cleaned or sanitized to prevent the buildup of potentially infectious material (urine, excreta, etc...) which can pose a risk to the health of the animals.

The surfaces of housing facilities--including houses, dens, and other furniture-type fixtures and objects within the facility--must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized,
