There are 3 freezers in the food storage area in the trailer for the tigers. There is a thick layer of dirt on the freezers and there are dead insects and dirt inside the two freezers that contain meat. The third freezer was not checked because they had other items stored on top and they said it was currently empty. There are ziploc bags used to store the food, dish detergent, a pressure washer, trash bags and other items haphazardly stored in the room. Food must be stored in a manner that will protect it from contamination. The dirt on and in the freezers as well as the clutter and debris increase the risk of contamination.
