### 2.1(b)(2)(ii)

#### Requirements and application

The licensee is exhibiting and providing public interactions with two spider monkeys. The current license does not permit covered activity with these primates. Licenses authorize a specific number and specific type(s) of animals for the use of regulated activity (i.e., exhibiting). Licensure with the USDA must specifically authorize the use of group 6 non-human primates, which includes spider monkey species.

The licensee must either remove these animals from exhibition permanently or obtain a new license which authorizes the use of this category of animal before continuing to exhibit this animal.

This inspection and exit interview were conducted with a facility representative.
