ANNUAL REPORT.

Pigs on an IACUC approved protocol are restricted in farrowing crates for a period of approximately three weeks. The restricted animals are exercised at least once daily during this time. For the period they are in the crates, the pigs' normal postural adjustment are restricted, as they are unable to turn around. This exception to space requirements is noted in the protocol, but has not been included in the Facility's annual report. A summary of all exceptions to the standards and regulations under the Act must be attached to the facility's annual report. An addendum to the annual report including all exceptions shall be submitted.
