

Inspection Report

Austin Zoo
P. O. Box 91808
Austin, TX 78709

Customer ID: **3893**
Certificate: **74-C-0208**
Site: 001
Austin Zoo

Type: ROUTINE INSPECTION
Date: 13-APR-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Doses of rabies vaccine with an expiration date of 3/2015 are present in the refrigerator with other medications. Vaccines lose their effectiveness when expired and may effect the immune response to the vaccine . Vaccines and other medications must be maintained within the expiration date to ensure that adequate veterinary care is provided.

CORRECT BY : 5-15-15

3.75(a)

HOUSING FACILITIES, GENERAL.

The perch in the first enclosure in the sheltered housing area for the capuchins is secured by wire to the wall of the enclosure. There is a loop in the wire large enough to allow a foot or hand to become trapped or injured. The perch must be secured in a manner that protects the animals from injury. CORRECT BY 4-18-15

The board along the edge of the ceiling over the sheltered enclosures for the brown lemurs is discolored on one end and beginning to rot. There is a small hole in metal roofing over these enclosures. There is concern that water is leaking on the board causing the damage and the small hole in the metal roof may allow rain water to wet the animals. Housing facilities for non human primates must be maintained so they are structurally sound and kept in good repair .

CORRECT BY : 5-15-15

3.75(c)(1)(2)

HOUSING FACILITIES, GENERAL.

Several wooden resting platforms in the sheltered housing area for the capuchins are worn , Some areas on the boards have jagged edges and are pitted. These areas may collect debris making cleaning difficult and jagged areas may cause injury to the animals . All surfaces of housing facilities for non human primates must be made of materials that can be readily cleaned and sanitized or removed or replaced when worn or soiled. CORRECT BY : 5-15-15
