Alvin, TX 77511

Customer ID: **4870**
Certificate: **74-C-0153**
Site: 001
CLINTON WOLSTON III

Type: ROUTINE INSPECTION
Date: 10-AUG-2017

2.40(a)(1) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The licensee does not have a written program of veterinary care for primate species.

The licensee does have a written program of veterinary care for other species on the property, however it does not address adequate euthanasia methods.

Each exhibitor shall employ an attending veterinarian under formal arrangements to ensure that adequate veterinary can be provided to the animals on the premises. Formal arrangements with a part time or consulting veterinarian must include a written program of veterinary care for all species that reflects veterinary, husbandry, handling and dietary practices at the facility and regularly scheduled visits by the veterinarian often enough to provide appropriate oversight of the care and use of the animals.

2.40(b)(2) DIRECT REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A mature female dromedary camel "Cleo" who is possibly older than 20 years, was dorsally recumbent in an open pasture. The camel appeared thin and stiff, inflexible and when the animal attempted to walk it seemed to do so with difficulty. A round growth, approximately the size of a baseball, was observed at the base of her tail and a smaller was observed by her right eye. The attending veterinarian has seen and diagnosed the animal, however the recommended treatment plan has not begun. The animal must begin the veterinarian recommended treatment plan.

This was a focused inspection to address veterinary care noncompliances in the previous inspection. Inspection and exit interview were conducted with the owner.
