PAT WESS

Type: ROUTINE INSPECTION  
Date: 04-NOV-2015

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The Licensee's current Program of Veterinarian Care is lacking guidance on adult vaccination schedules for all species of animals. It does not provide any guidance on treatments or medications for Squirrels. In addition, it is missing key information for dosage, frequency of administration and route of administration for all medications. Not having proper guidance for medications and vaccinations does not ensure that these animals receive adequate veterinarian care. The Licensee must ensure that they have a detailed Program of Veterinarian care with specific guidance for dosage, frequency of administration and route of administration for all medications or vaccinations that will be used on all species within the facility.

Correct By: 11/11/2015

### 2.40(a)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The current Program of Veterinarian Care states that the Licensee should be using Panacur/Fenbendazole for intestinal parasites and Frontline for ecto parasites. However; the License stated that she was using Albon, Ivermectin and Pyrantal for parasites. By using medications that are not listed in her Program of Veterinarian Care, the Licensee is not allowing the Attending Veterinarian to have the appropriate authority to appropriately treat the animals within the facility. It is the Licensee s responsibility to ensure that the current Program of Veterinarian Care is being followed exactly as it is written by the Attending Veterinarian. Licensee must ensure that the Program of Veterinarian Care is followed and that the Attending Veterinarian is given the appropriate authority to treat all animals within the facility.

Correct By: From this Day Forward

Inspection and Exit conducted with the Licensee, Animal Care Inspector Shannon Sebera and Veterinarian Medical Officer Kathy Campitelli.

Prepared By: SHANNON SEBERA, A C I USDA, APHIS, Animal Care
