

## Inspection Report

Berny Ramos Productions Inc.  
4629 Mayflower Lane  
Las Vegas, NV 89107

Customer ID: **322540**  
Certificate: **88-C-0193**  
Site: TRA

BERNY RAMOS PRODUCTIONS, INC.

Type: ROUTINE INSPECTION  
Date: 28-JAN-2016

### 2.126(a)

#### ACCESS AND INSPECTION OF RECORDS AND PROPERTY; SUBMISSION OF ITINERARIES.

The written Program of Veterinary Care (PVC) was not available at time of inspection. Documentation provided showed that the 2 camels, 2 zebras, and 2 llamas were last inspected by the attending veterinarian in May of 2015 and were "in good health and good weight."

A system should be in place to ensure the required paperwork is available for review at time of inspection.

To be corrected by March 15, 2016.

### 3.138(a)

#### PRIMARY CONVEYANCES (MOTOR VEHICLE, RAIL, AIR, AND MARINE).

The transport truck doors have glass paneled windows that can be readily opened to allow for air flow. These windows are protected by wire mesh covers as they are in an area where animals have access to and food and bedding are stored. Two windows on one side of the truck are missing their wire mesh safety covers. An additional window on the opposite wall has a wire mesh cover that is separating from the window, and an opening has formed. These window covers should be repaired and/or replaced to minimize the risk of injury to the animals in the event of breakage.

The animal cargo space of primary conveyances used in transporting live animals shall be constructed and maintained in a manner that protects the health, and ensures the safety and comfort of the animals contained therein at all times.

There were no animals being housed in the transport vehicle at time of inspection.

To be corrected by March 15, 2016

An exit briefing was conducted with the facility representative.

Prepared By: ALEXANDRA ANDRICOS, D V M USDA, APHIS, Animal Care
