## Inspection Report

---

The facility has not developed a Contingency Plan. The contingency plan requirement ensures a sound plan is in place in the event of emergency situations, identifying the tasks and chain of command on-hand. Exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession).

Correct by October 7, 2022.

This inspection and exit interview were conducted with the licensee.
