

## Inspection Report

Cherokee Trace L.P.  
416 Mulberry St  
Tyler, TX 75702

Customer ID: **26185**

Certificate: **74-C-0600**

Site: 001

Cherokee Trace L.P.

Type: ROUTINE INSPECTION

Date: 06-AUG-2014

### 3.127(d)

#### FACILITIES, OUTDOOR.

An eight foot high fence on 300+ acres functions as primary enclosure fencing for aoudad, black buck, eland, lechwe, oryx, wildebeest, water buffalo, zebra and a camel. There is no additional fencing functioning as a perimeter fence for these animals at the facility.

A perimeter fence at least 6 feet high and sufficient distance (at least 3 feet) from the primary enclosure fence is required to keep animals and unauthorized persons out and/or from having contact with the animals. The perimeter fence also functions as a secondary containment system for the animals in case of escape.

For the safety of the animals and to help ensure their protection from injury and harm, a perimeter fence must be in place or approval obtained from the Administrator.

Correct by: November 7, 2014.

The inspection and exit interview were conducted with the property manager.
