AND WILDLIFE SANCTUARY

Type: RE-LICENSE INSPECTION

Date: 29-SEP-2023

3.154

Environment enhancement to promote psychological well-being.

A documented plan for environmental enhancement to promote the psychological well-being of birds is not available for review at the time of inspection. The plan must be species appropriate, approved by the attending veterinarian, and address all elements required by this subpart. In order to assure the appropriate environmental enhancement for the species being housed, a plan must be documented and followed.

To be corrected by documenting an appropriate plan for the environmental enhancement for birds by October 15th, 2023.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by November 28th, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
