Type: ROUTINE INSPECTION  
Date: 23-JUL-2014

### 2.31(c)(3)

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The IACUC's semi-annual animal facility inspection and program review was conducted on an interval of greater than six months. The previous two inspections were conducted on 23 August 2013 and 8 May 2014 respectively. This interval is approximately 8.5 months between inspections. Also, the report that was submitted to the Institutional Official did not contain a reasonable and specific plan to correct identified deficiencies, nor did it contain scheduled correction dates. In order to ensure compliance with the Animal Welfare Act standards, reports of the IACUC's evaluations of the program for humane care and use of animals and the research facility's animal facilities must be prepared and updated at least once every 6 months upon completion of the required semiannual evaluation, and must contain both a reasonable and specific plan for correction of deficits, and a schedule of correction deadlines.

\*\*\*\*\*

To be corrected from this point forward.

This inspection and exit interview was conducted with facility representatives.
