2.40(b)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Outdated medications including Scarlet Oil (12/14), Betadine Scrub (4/15), and Valbazen (Albendazole) (10/13) were found in medical cabinet in feed room. The use of expired veterinary products is not considered acceptable veterinary practice and therefore not considered accurate veterinary care. Expired medications may not be used on regulated animals, and must be segregated from other drugs and clearly labeled as "expired". Ensure that all drugs are within date. Correct by July 7, 2017.

3.125(a)

FACILITIES, GENERAL.

There are at least four broken boards on the top rail of the horse/goat enclosure on the east side. Primary enclosures must be kept in good repair to protect animals from injury and contain the animals. The broken boards need to be removed and replaced to prevent injury and animal escape. Licensee must ensure that all animal enclosures are kept in good repair. Correct by July 15, 2017.

This inspection and exit interview were conducted with caretaker and AC Extern.
