### 3.1(e)

#### HOUSING FACILITIES, GENERAL.

An open bag of goat milk replacer was found sitting on the east floor in the puppy barn. A box of dog biscuits was also found open and sitting on top of a covered trash receptacle along the south wall. Open containers of food may attract vermin and become contaminated. All opened food items and open food bags should be kept in leakproof containers with tight fitting lids to prevent contamination and spoilage.

Correct by 12-13-2017

This inspection and exit interview were conducted with a facility representative.
